

# OYBEK ARTIKOV

---

## LEAD FRONT END DEVELOPER

**Location:** Tashkent, Uzbekistan (Open to Remote US/EU)  
**Email:** [artikov.dev@gmail.com](mailto:artikov.dev@gmail.com)  
**Phone:** +998 91 917 0880  
**Portfolio:** <https://portfolio.artikov.tech>  
**GitHub:** <https://github.com/artikov>  
**LinkedIn:** <https://www.linkedin.com/in/artikov/>  
**Upwork:** <https://www.upwork.com/freelancers/artikov>

## PROFESSIONAL SUMMARY

Front End Developer with 4+ years of experience building and maintaining production web applications using React, TypeScript and Next.js. Currently leading frontend development for a Netherlands-based SaaS startup, most recently evaluating AI-generated code for large language model training at Revelo. Experience working with 10+ cross-functional teams and contributing to 30+ web projects across client-facing and internal systems. Founder of Artikov Tech, mentor to 100+ developers, and open-source contributor. Strong background in modernizing legacy codebases, integrating frontend applications with RESTful APIs, and collaborating with international teams in remote environments.

## TECHNICAL SKILLS

**Frontend:** React, Next.js, TypeScript, Redux, Vue.js, Tailwind CSS, Radix UI, shadcn/ui, React Flow, HTML, CSS

**Backend:** Node.js, Express.js, RESTful APIs, MongoDB, PostgreSQL

**Languages:** JavaScript, TypeScript, Python

**Integrations:** Shopify, WhatsApp API

**AI & LLM:** SFT/RLHF workflows, LLM code evaluation, prompt engineering, Claude Code

**Authentication & Security:** JWT-based authentication and authorization

**Version Control:** Git, GitHub

**Development Practices:** Agile, accessibility (a11y), UI/UX collaboration, code reviews, mentoring

**Spoken Languages:** English, Russian, Uzbek

## PROFESSIONAL EXPERIENCE

### Lead Front End Developer

Stealth Startup — Netherlands | Remote

Feb 2026 - Present

- Lead frontend development of a SaaS platform that lets Shopify store owners manage and engage their customers over WhatsApp.
- Build the application interface in TypeScript, React and Next.js using Radix UI primitives and Tailwind CSS.
- Developed a React Flow canvas where merchants visually design their own WhatsApp messaging automations.
- Use Claude Code as part of the daily workflow to accelerate delivery while keeping strict code review standards.

### Senior Software Engineer

Revelo — Florida, USA | Remote

Jan 2026 - Oct 2026

- Evaluated and ranked AI-generated code responses (SFT/RLHF workflows) across frontend and full-stack tasks, applying multi-axis quality rubrics covering correctness, instruction-following, code style, and safety.
- Authored and refined high-quality prompt-response pairs and golden-standard code solutions in JavaScript/TypeScript and React to train large language models on real-world engineering tasks.
- Reviewed and audited peer annotations, providing structured feedback and filing detailed appeals/escalations that improved rubric clarity and labeling consistency across the team.
- Debugged, executed, and validated AI-produced code changes against task requirements, ensuring functional correctness before final rating submission.

### Front End Developer & Mentor

Ministry of Digital Technologies (AI Xorazmiy Successors) — Urgench, Uzbekistan

Mar 2024 - Mar 2026

- Built accessible, scalable UI components supporting digital public services.
- Mentored 100+ students across frontend and full stack (MERN) tracks using project-based, industry-aligned development workflows.
- Guided learners through building complete web applications with React, Node.js, Express and MongoDB, emphasizing component architecture, clean code, and maintainability.

- Reviewed student codebases, identifying architectural, logical, and performance issues aligned with professional engineering standards.
- Maintained structured technical documentation and learning materials in Notion to ensure consistency and reuse.

## Front End Developer

Next Level Group — Urgench, Uzbekistan

Sep 2023 - Feb 2024

- Developed custom web applications using React and JavaScript based on client requirements and business needs.
- Translated functional requirements into responsive, accessible interfaces optimized for cross-device compatibility.
- Improved application performance and maintained scalable UI codebases in an agile, fast-paced environment.
- Managed multiple projects concurrently while maintaining code quality and delivery timelines.
- Worked directly with clients and stakeholders to clarify requirements and reduce implementation rework.

## MERN Stack Developer

Tech Spot — Texas, USA | Remote

Sep 2022 - May 2023

- Joined as a Front End Developer and grew into a Full Stack role within a year, owning both frontend and backend work across multiple client projects.
- Implemented user authentication and authorization using JWT, enhancing the security and privacy of user data.
- Designed and implemented RESTful APIs with Node.js, Express and MongoDB to enable smooth interaction between the frontend and backend.
- Collaborated with the product team to define and refine software requirements, translating business needs into technical solutions.
- Led the migration of a legacy codebase to a modern tech stack, improving code maintainability and scalability.

## Front End Developer Intern

ITransition Group — Minsk, Belarus

Sep - Dec 2022

- Developed and maintained React-based web applications in production environments.
- Implemented responsive UI layouts to ensure consistent user experience across devices.
- Contributed to shared codebases following established development standards and workflows.

## SELECTED PROJECTS

**Artikov Tech** — [artikov.tech](https://artikov.tech)

- Founder and lead of a development company building digital products and mentoring aspiring developers. **Stack:** Next.js, TypeScript, Tailwind CSS, shadcn/ui.

**Samanid** — [samanid.us](https://samanid.us)

- Website and custom admin panel for a US-based logistics company to manage content, shipments and daily operations. **Stack:** Next.js, TypeScript, Tailwind CSS, PostgreSQL.

**Ilhom Market**

- Local marketplace platform connecting buyers and sellers across a wide range of products and services. **Stack:** Next.js, TypeScript, Tailwind CSS, Vuxy UI.

**SparkIQ** — [www.sparkiq.io](https://www.sparkiq.io)

- Frontend for an AI-driven business analytics platform, delivered for an international Upwork client. **Stack:** React, TypeScript, Tailwind CSS.

**Reference (cheatsheets.zip)** — [cheatsheets.zip](https://cheatsheets.zip)

- Open-source contributor to a curated collection of developer cheat sheets and resources. **Stack:** JavaScript, TypeScript, Markdown.

## EDUCATION

Bachelor of Science (Honours) in Business Information Systems

Westminster International University in Tashkent — 2022

## CERTIFICATIONS

- Meta Front-End Developer Professional Certificate — Meta, Coursera
- AWS Generative AI Applications Professional Certificate — Amazon Web Services, Coursera
- CS50: Introduction to Computer Science — Harvard University
- MERN eCommerce From Scratch — Traversy Media, Udemy
- The App Brewery — Web Development Bootcamp, London
